VANUATU - Country of Opportunity

Vanuatu is a South Pacific Ocean nation made of an archipelago of 83 islands stretching 1300 kilometers.

Multiple waves of colonizers, each speaking a distinct language, migrated to the Melanesian Islands in the millennia preceding European exploration. This settlement patterns accounts for the complex linguistic found on the archipelago to this day. The British and French settled on the islands during the 19th Century and called the newly formed country "New Hebrides". In 1906, they agreed to an Anglo-French Condominium, which administered the islands until independence in 1980, when the new name of Vanuatu was adopted.

Population

308,396 (September 2020 estimate).
Population Growth rate 2.40%.

Economy

Primarily based on small-scale agriculture, which provides a living for about two thirds of the population, especially livestock farming which is the second target for growth.

A small light industry sector caters to the local market.

Tax revenues come mainly from VAT, excise and transaction taxes.

Fishing, offshore financial services and tourism are also another source of revenue for the country with an estimated 116,000 visitors in 2018. Australia, New Zealand and China are the main source of tourists and aid.

Since 2002, the Government has stepped up efforts to boost tourism through improved air connections, resort development and cruise ships facilities. These efforts have reached another milestone when Air Vanuatu, the national airline, made the acquisition of 4 additional A220 to its fleet (delivery programmed in 2021-2022) to increase its rotations to new cities in Australia and New Zealand.

In 2018, revenues from citizenship sales has become the single largest source of revenue in Vanuatu today, overtaking revenue generated from VAT for the first time.

Travelling to Vanuatu

You can fly to Port Vila's Bauerfield International airport (VLI) directly from Australia, New Zealand, Fiji, Solomon, New Caledonia and Papua New Guinea.

The islands offer scuba diving at coral reefs, underwater caverns and wrecks such as the WWII-era troopship SS President Coolidge. Hiking trails ascend active volcanoes such as Mt Yasur. Other popular activities include rainforest ecotours, kayaking and deep-sea fishing, plus relaxing at resorts and spas.
